DRAMMEN, - October 16, 2023 - Based upon Kongsberg Aeronautical's ongoing and increasing activity pursuing its technology towards Japanese aviation, Norwegian Chamber of Commerce in Japan's Board of Directors approved Kongsberg Aeronautical membership.

Due to the nature of Japanese business culture, our membership is expected to strengthen our position and networking within Japan, as well as in Asia.

The Norwegian Chamber of Commerce in Japan, co-located with the Norwegian Embassy in Tokyo, aims at acting as a channel between its members and the Norwegian and Japanese authorities on particular topics of special interest to its members.
